Re: HEALTH ASSESSMENT OF THE APPLICABILITY OF ANTISTATIC FLOORING, NOT FORMING SPARKS, NIL-EK 1 TYPE, PRODUCED BY ET EVGENII ROUSSEV SOFIA

Dear Sirs,

In accordance with a contract signed between us, we hereby present a HEALTH ASSESSMENT OF THE APPLICABILITY OF ANTISTATIC FLOORING, NOT FORMING SPARKS, NIL-EK 1 TYPE, PRODUCED BY ET EVGENII ROUSSEV SOFIA.

DIRECTOR: (signed illegibly)
Assoc. Prof. eng. N. Rizov

(stamped with a round seal of the National Centre of Hygiene, Medical Ecology and Nutrition)

1431 Sofia, Bulgaria, 15 D. Nestorov St., phone: 954 13 – 00, 58 12 274, fax: (359 2) 954 12 77

Conclusion: Antistatic flooring, not forming sparks, type NIL-EK1, produced by ET Evgenii Roussev – Sofia, may be applied in construction, according to the designation and the manner, while complying with his conditions and instructions for laying and control of the electric resistance by an authorized laboratory. As long as these requirements are fulfilled, the flooring does not pose a threat to human health and the environment.

Assessment carried out by: (signed illegibly)
Prof. Dr. M. Chouchkova
